

# ANALYTICS FOR HOSPITAL'S HEALTH-CARE DATA

## JIRA SOFTWARE SETUP

TEAM ID: PNT2022TMID04514

The screenshot shows the Jira Software Roadmap view for the project 'shanmugapriya'. The interface includes a left sidebar with navigation options: Roadmap (selected), Board, Code, Project pages, Add shortcut, and Project settings. The main area displays a timeline from October to December. Four sprints are visible: SHAN-1 sprint-1, SHAN-2 sprint-2, SHAN-3 sprint-3, and SHAN-4 sprint-4. A 'Quickstart' panel on the right offers options to create a project, map out goals, identify work chunks, monitor risk, create issues, and invite teammates. The bottom of the roadmap shows tabs for Today, Weeks, Months (selected), and Quarters.

The screenshot shows the Jira Software 'SHAN board' view. The left sidebar is the same as the roadmap view. The main area is divided into three columns: 'TO DO 4 ISSUES', 'IN PROGRESS 2 ISSUES', and 'DONE 2 ISSUES'. Each column contains a list of issues with their descriptions and checkboxes. For example, in the 'TO DO' column, there are four issues related to EHR details, data insights, and LOS prediction. The 'IN PROGRESS' column has two issues about patient tracking and data analysis. The 'DONE' column has two issues about user data requirements and dashboard visualization. A 'Quickstart' panel on the right provides a 'Kanban in Jira Software' overview, explaining how to use the board to manage workflow.
